Spring 1910!

BULLETIN NO. 2

Grade Count Surplus
Transplanting Stock : :
Imported Stocks, Seedlings

CHASE NURSERY COMPANY

HUNTSVILLE, ALABAMA, February 9th, 1910.

TO THE TRADE:

Many final counts have been made since Bulletin No. 1 was issued, and this issue covers the revised figures, showing many new items.

We will box for Cold Storage at St. Louis as heretofore, all Surplus Stock, beginning this packing toward the latter part of this month. The earlier you get your order in, the better.

Freight prepaid to St. Louis, Rochester or Philadelphia on all Spring shipments.

Boxing extra except where noted.

Where purchaser's responsibility is unknown to us, terms will be cash with order or good references.

In writing your order, please name a "second choice" whenever you can do so.

We invite your special attention to our list of Seedlings and Transplanting Stock—Roses, Shrubs, Fruit and Ornamental Trees, Etc.

Complete Stock of Nurserymen's Supplies always on hand,
ask for Special Catalogue if interested.

APPLE, 1 Year; Clean Roots

	4 to 5 feet whips 8 cents	3 to 4 feet whips 6½ cents	2 to 3 feet whips 3¾ cents
Ben Davis		1500	2800
Hackworth	200	500	1450
Kinnard's Choice	150		
Pound Royal		50	650
Yates		500	800
Yellow Transparent			2100

APPLE, 2 Year; Clean, Well Branched

	¾ to 1 in. 10 cents	½ to 9-16 6 cents
Kinnard's Choice	100	200

APRICOT, 1 Year, On Peach

	9-16 to ¾ well br. 12½ cents	½ to 9-16 well br. 9 cents	7-16 to ½ branched 8 cents	4 to 5 feet whips 8 cents	3 to 4 feet whips 7 cents	2 to 3 feet whips 5 cents

FINE FOR TRANSPLANTING

	2 to 3 feet 5 cents	18-24 ins. 4 cents	12-18 ins. 3 cents	6-12 ins. 2 cents	2-6 ins. 1 cent
Moorpark		425	900	50	
Royal	125	500	575	150	150
*Wilson			1200	900	700

*Wilson was sent to us for propagation from Colorado, where it is much in demand. It is a week earlier than Moorpark and similar. (It may be St. Ambrose.)

BRITISH COLUMBIA, January 28th 1910—"We have received both shipments and, we are happy to report, in good condition. We thank you very much for the interest you have displayed in getting the goods through in time and greatly appreciate your methods from your business courtesy to the way goods are packed."

No matter whether you live in B. C. or D. C. or S. C. we can serve you as satisfactorily as we have these good customers and friends.

CHERRY, 2 Year, Second Class

As many of our customers know, we sometimes make a second grade of Cherry. These trees have no disease of any kind. Some of the tops are rather poorly shaped, and others are a little rough. All are O K when it comes to roots, and we believe they are good value at prices named.

480 Satsuma Orange, Imported from Japan, 2 to 3 feet	35 cents

MICHIGAN, January 17th, 1910.—“Find enclosed 60 cents for three springs for 8 inch French Shears; the shears are the best we have ever used, although the springs will break, but no wonder when they make 8,000 to 10,000 cuttings every day, do it quicker, easier used and stand the work as well as any made, our men say. They are the shears that show class.”

ROSES, Hardy, Common, Own Roots

- No. 1, 24 to 30 inches wood, all well rooted, 3 or more branches.
 No. 2, 18 to 24 inches wood, all well rooted, 3 or more branches.

PRIVET

If you like beautifully rooted Privet, ours will fill the bill. It would be well for our friends in the Middle West to give the Amoor River North and the Ibota (New England type) a thorough test; both varieties are much hardier than the California Privet.

	PER 1000
8200 California, 2 to 3 feet, 2 and 3 branches	\$22 50
11000 California, 18 to 24 inches, 2 and 3 branches	15 00
16000 California, 12 to 18 inches, 4 and more branches	12 50
9500 California, 12 to 18 inches, 2 and 3 branches	10 00
15000 California, 6 to 12 inches, well branched	9 00
700 Amoor River North, 3 to 4 feet, well branched	85 00
700 Amoor River North, 2 year, 1 to 2 feet, cut back	30 00
700 Amoor River North, 2 year, 18 to 24 inches, cut back, well branched	35 00
1200 Amoor River South, 4 to 5 feet, heavily branched	35 00
2800 Amoor River South, 3 to 4 feet, well branched	27 50
3500 Amoor River South, 2 to 3 feet, well branched	22 50
2100 Ibota, (New England Type) 18 to 24 inches, well branched	30 00
2650 Ibota, (New England Type) 12 to 18 inches	20 00

NOTE:—The Amoor River South is especially desirable for all the Southern States, holding its foliage longer than any of the other Privets, making it almost an evergreen, the new leaves usually forcing the old ones to drop.

FRUIT TREE STOCKS

Six cars of Imported Stock and Seedlings have arrived safely and opening up nicely. The grade is high, the packing the best. Both of these important items are handled under the personal supervision of our own representative in France. The shipments come forward in car load lots, giving us every advantage in freight rates. If you are interested in Mahaleb Cherry in full case lots, write us for special prices.

Prices include packing. F. O. B. Chase, Ala.	Per 1000

SUPPLIES—FRESH STOCK, LOWEST PRICES, QUICK SHIPMENT

PRUNING SHEARS

We buy in quantities, close, and always for spot cash. The French Shears we import direct from the makers. In buying all other supplies we try to reach the fountain head—the maker—giving our customers the benefit of “inside” prices.

WATCH SPRING, FRENCH, 8 INCH

Watch Spring, French, 8 Inch—These shears make a clean cut. The spring is quick and positive, but not strong enough to tire the operator. We began using them in 1896 and frequently have two dozen pairs or more in use at one time. We believe they are **THE BEST** pruning shears. Once in a while a spring may break, but we now carry extra springs in stock, both sizes, at 20 cents each. These can be mailed promptly and easily put in place. Price of shears, \$1.35 per pair, postpaid; 14.50 per dozen pairs by express or freight. Weight per dozen pairs, 7 lbs.

For Cutting Seedlings Back to the Bud, or for Heavy Work—Same make as above, 9 inch, \$1.70 per pair, postpaid; \$17.00 per dozen pairs by express or freight. Weight per dozen pairs, 11 pounds. They make a quick clean cut; strong enough for heavy work. We especially recommend this size for “cutting back.”

Shears of other makes and styles, including some of lower price, always in stock. Write for Catalogue.

KNIVES

“Chase’s Alabama Grown” Knives are especially made for us by one of the great cutlery manufacturers who has a reputation of **GOOD QUALITY**. The blades are hand-hammered from Wardlow’s English Steel. For many years we have used knives from this maker and have found them satisfactory.

C. A. G. Grafter—Cocoa handle, folding; pocket edition. 30 cts. each, \$3.25 per doz., postpaid; \$3.00 per doz., by freight or express.

C. A. G. Pruner—Stationary handle, not folding; “hawk bill” full length, 8 inches; length of blade, 3 inches. 30 cts. each, \$3.20 per doz., postpaid; \$2.85 per doz., by freight or express.

Chase’s Special Ivory Tip—A mighty good budding knife, folding; next to Wostenholm’s, it is the best ivory-tipped knife we can find; in appearance almost like Wostenholm’s. 60 cents each; \$6.00 per dozen, postpaid; \$5.75 per dozen, by freight or express.

Wostenholm’s I X L Ivory Tip—The best budding knife we know of, and strong enough for an all-purpose knife, folding. 75 cents each; \$8.25 per dozen, postpaid; \$8 per doz., by freight or express.

Stationary Handle Budder—Not folding. Made for budding, but not as convenient for the pocket as the others, 25 cents each; \$2.50 per dozen, postpaid; \$2.25 per dozen, by freight or express.
